SMARTeeSTORY

TURNING **HISTORICAL** **BUILDINGS** INTO **CLIMATE** NEUTRAL LANDMARKS

www.**smarteestory**.eu

SMARTeeSTORY is an EU-funded project that accelerates the digital transformation of historical non-residential buildings.

It drives the transition towards a more sustainable built environment by promoting solutions that combine energy efficiency, renewable energy sources and digital and smart technologies.

DEMONSTRATOR SITES

Faculty of Architecture and the Built Environment, TU Delft, Netherlands

Royal Chancellery of Granada, Spain

Riga City Hall, Latvia
